

SOW Appendix

A

APPENDIX A

Definitions and Acronyms

A1.1. DEFINITIONS. The following is a list of definitions used in this SOW.

ADMINISTRATIVE CONTRACTING OFFICER (ACO). A base level government employee with authorization to administer contracts on behalf of the United States Government.

AFMETCAL CERTIFICATION. The process which assesses and certifies calibration laboratories to ensure they perform measurements that are safe, accurate, reliable, and traceable through AFPSL, NIST, or other AFMETCAL Det 1 approved sources.

BASELINE CALIBRATION LIMITATION (BCL) LISTING. Recorded initial limited calibration parameters.

CONTRACTOR ACQUIRED SUPPLIES & EQUIPMENT. Property acquired by the contractor with Government approval and funds. Title of such property remains with the Government. The CO is the approving authority for contractor acquired property, with FD coordination.

CUSTODIAN AUTHORIZATION/CUSTODY RECEIPT LISTING (CA/CRL). A listing used to track and authorize all accountable items.

CUSTOMER. The users/owners of TMDE requiring calibration and maintenance service.

DEFERRED STATUS. TMDE in authorized delay status for reasons which are beyond the contractor's control.

EQUIPMENT AUTHORIZATION INVENTORY DATA (EAID). Data on high and low accountable items listed in the CA/CRL.

FACILITIES EQUIPMENT MAINTENANCE SYSTEM (FEMS). The computer system used to track all PMEL workload actions.

FACILITY. The term facility includes the Precision Measurement Equipment Laboratory (PMEL) and assigned work and storage areas not collocated that are assigned to the contractor to satisfy the requirements of this contract.

FULL PERFORMANCE. The date when the contractor assumes responsibility for the workload covered under this contract.

FUNCTIONAL MANAGER (FM). The government person responsible for the PMEL function covered under this contract.

GOVERNMENT FURNISHED EQUIPMENT (GFE), MATERIAL (GFM), PROPERTY (GFP), OR SERVICES (GFS). Government-owned property or services furnished to a contractor for the performance of a contract. Includes, but is not limited to, (a) industrial

facilities, (b) material, (c) special tooling, (d) special test equipment, (e) military property, (f) services, and (g) data.

INTEGRATED MANAGEMENT PLAN (IMP). The purpose of the IMP is to capture key elements within a program up front. This provides a management tool during all phases of contracting. Integrating all areas of a program with IMP offers the program manager more control to the program.

INTEGRATED MASTER SCHEDULE (IMS). The IMS is a schedule of the program tasks. It is directly traceable to the IMP and is used to track program status. The schedule reflects order and length of tasks, not actual dates.

MAINTENANCE PRIORITIES.

EMERGENCY. One-of-a-kind TMDE that is inoperable or due calibration and for which a critical job is at a work stoppage.

MISSION ESSENTIAL. One-of-a-kind or one-deep TMDE that is part of a unit's deployment package, or is critical to daily peacetime operations or TMDE assets falling below critical availability levels.

ROUTINE. TMDE not categorized as emergency or mission essential.

MAINTENANCE STANDARDIZATION AND EVALUATION PROGRAM (MSEP). An AFMC/CC directed quality review of Air Logistics Center maintenance processes. A team of inspectors representing avionics, back-shops, crew chiefs, production, propulsion, planning, quality assurance, safety, and training will inspect each site on an annual basis. The purpose of this inspection is to look at four fundamental maintenance processes: maintenance management, technical data, tools and equipment, and qualification and training. In addition, the MSEP Team evaluators will conduct task evaluations of assigned maintenance personnel. The task evaluations will be conducted in accordance with the established Rules of Engagement and Task Evaluation Checklist.

MEASUREMENT STANDARD. A piece of equipment of a known accuracy to which TMDE is compared during calibration.

NOT REPARABLE THIS STATION (NRTS). TMDE returned to customers, or subassemblies returned to supply, in other than repaired or certified condition as a result of lack of tech data, lack of parts, field level repair prohibited by tech data, etc.

OPERATIONS SECURITY (OPSEC). Operations Security is a process concerned with identifying, controlling, and protecting the generally unclassified evidence that is associated with sensitive operations and activities. OPSEC looks at our day-to-day behavior from a competitor or adversarial point of view. OPSEC is a valuable tool used to counter agents in their effort to determine vulnerabilities, weaknesses, and shortfalls that would interfere with the AF Mission.

OWNING WORK CENTER (OWC). An activity that possesses TMDE.

QUALITY ASSURANCE PERSONNEL (QAP). Government employees responsible for evaluating and documenting contractor performance in accordance with the Quality Assurance Surveillance Plan.

QUALITY ASSURANCE SURVEILLANCE PLAN (QASP). A document that specifies methods and procedures to perform surveillance of the contractor's performance.

RECORDS. All books, papers, maps, photographs, machine-readable materials, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the US Government under federal laws, or in connection with the transaction of public business, and preserved or appropriate for preservation by an agency, or its legitimate successor, as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the government or because of informational value of data in them. Library and museum material made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for convenience of reference, and stocks of publications and processed documents are not included (Title 44 U.S.C., Section 3301)

RETURN TO OWNER (RTO). TMDE returned to the customer, not serviced, for customer's action (i.e. to provide technical data or accessories, commercial repair/calibration, etc.).

SERVICE DELIVERY SUMMARY (SDS). Identifies the key service outputs of the contract that will be evaluated by the government to assure contract performance standards are met by the contractor. During the performance of this contract Service Delivery Summary (SDS) is being used instead of Performance Requirement Summary (PRS).

TEST, MEASUREMENT, AND DIAGNOSTIC EQUIPMENT (TMDE). Those devices used to test, measure, evaluate, inspect, or otherwise examine materials, supplies, equipment, and systems to identify or isolate any actual or potential malfunction, or to determine compliance with specifications established in technical documents.

THROUGHPUT TIME. The time counted for an item from "Received by PMEL" until "Awaiting Close".

UNIT OF WORK. A unit of work is consider to be a calibrated piece of TMDE which has been entered as "closed" in FEMS or its equivalent system. A unit of work does not include Not Repairable This Station (NRTS) items.

A1.2. ABBREVIATIONS AND ACRONYMS. The following is a list of abbreviations and acronyms used in this SOW.

ACO – Administrative Contracting Officer
ADPE – Automated Data Processing Equipment
AF – Air Force
AFI – Air Force Instruction
AFMAN – Air Force Manual
AFMC - Air Force Material Command
AFMCI – Air Force Material Command Instruction
AFMETCAL – Air Force Metrology and Calibration
AFPSL – Air Force Primary Standards Laboratory
AFTO – Air Force Technical Order

ALC – Air Logistics Center
APR – Authorized PMEL Receiver
CA/CRL – Custodian Authorization/Custody Receipt Listing
CDR – Contractor Discrepancy Report
CFM – Contract Functional Manager
CMS – Calibration and Measurement Summary
DoD – Department of Defense
EAID – Equipment Authorized In-Use Detail
FAR – Federal Acquisition Regulation
FEMS – Facilities Equipment Maintenance System
GFE – Government Furnished Equipment
GFM – Government Furnished Material
GFP – Government Furnished Property
HAFB – Hill Air Force Base
IAW – In Accordance With
IMS – Integrated Master Schedule
IMP – Integrated Master Plan
LE – Electronics Directorate
MIS – Management Information System
MSEP – Maintenance Standardization and Evaluation Program
Non-EAID – Not Equipment Authorized In-Use Detail
NRTS – Not Repairable This Station
NSN – National Stock Number
OO-ALC – Ogden Air Logistics Center
OSHA – Occupational Safety and Health Act
OWC – Owning Work Center
PCS – Permanent Change of Station
PMEL – Precision Measurement Equipment Laboratory
QA – Quality Assurance
QASP – Quality Assurance Surveillance Plan
RBP – Received by PMEL
RTO – Return to Owner
SBSS – Standard Base Supply System
SDS – Service Delivery Summary
SF – Standard Form
SOW – Statement of Work
SR – Standard Review
TM – Technical Manual
TMDE – Test, Measurement, and Diagnostic Equipment
T.O. – Technical Order
USAF – United States Air Force

SOW Appendix

B

B. APPLICABLE PUBLICATIONS AND FORMS

1. Documents applicable to this Statement of Work (SOW) are listed below. The contractor is obligated to follow these documents to the extent they are applicable to TO 00-20-14 and the work required by the SOW. Compliance shall be in accordance with the following:

1.1. All tasks set forth in the SOW are the responsibility of the contractor except where wording of the SOW explicitly makes conformance a Government responsibility. It is recognized that, in conjunction with the tasks set forth herein, reference is made to Department of Defense, Air Force, Air Force Materiel Command, manuals, pamphlets, technical orders, and instructions. It is also recognized that because such referenced documents have been written with a view toward compliance by the Government they may contain language, which indicates performance is to be accomplished by Government personnel. Whenever such directives, manuals, pamphlets, technical orders, instructions, and other guidance are referenced, the contractor is to use such references as direction to perform the required duties (as if such references had been written toward performance by contractor personnel). Except as provided below, publications applicable to this contract shall bear the dates set forth in the SOW.

1.2. The contractor shall be bound to accomplish the tasks set forth herein and in the cited references of the SOW.

1.2.1. Should there be a conflict between the SOW and any of the references set forth herein, the SOW shall prevail.

1.2.2. Should there be a conflict between or among two or more such references, those issued by a higher authority shall prevail over those issued by a lower authority; and between or among those issued at the same level of authority, those with a later date of issue shall prevail over those with an earlier date.

1.2.3. Any duty set forth in such reference which shall call for the exercise of delegable discretionary Governmental authority shall be subject to the final approval of the Government official having such authority, notwithstanding that the contractor may be required thereby to perform duties and render advice at a level below such final approval.

1.3. Further, the contractor shall perform in accordance with all such referenced directives, manuals, pamphlets, technical orders, instructions, and other guidance as they may be from time to time revised, supplemented or amended.

FORM NUMBER	FORM TITLE	PRESCRIBING DIRECTIVE

C. FEMS CODES & REPORTS

1. **TMDE Status Categories.** Status codes used when entering, updating, and closing equipment items in FEMS.

STATUS CODES APPLICABLE TO TURN AROUND TIME

<u>Status Code</u>	<u>Definition</u>
AWCQ	Awaiting for contractor quality review
AWFOLLOWUP	Awaiting RCA follow-up
AWQPR	Awaiting for Quality Process Review
AWR	Awaiting Repair
AWRCA	Awaiting RCA coordination
COMP	Work order is completed
INPRG	In Progress
METRECON	Contractor reconciliation
RBP	Received by PMEL

DEFERRED STATUS (not applicable to turn around time)

<u>Status Code</u>	<u>Definition</u>
AEP	Awaiting Engineering Planning
AFND	Awaiting funds
AWA	Awaiting Government QA approval
AWAITCLOSE	Work order is completed, awaiting close (final deferral to organic)
AWC	Awaiting for commercial contractor service
AWCUSTREQ	Awaiting customer requirements
AWE	Awaiting for equipment
AWF	Awaiting for facility
AWGQ	Awaiting for QAE quality review
AWP	Awaiting for parts that have been ordered
AWS	Awaiting for lab standards. Only used if a required lab standard is undergoing repair or calibration
AWT	Awaiting for technical data
HOLD	Work order placed on hold
PARLSUP	Lateral support
TOCODE	Routed to other agency
WAPPR	Awaiting approval

NOT APPLICABLE FOR CONTRACTOR ENTRY (or turn around time)

<u>Status Code</u>	<u>Definition</u>
CAN	Work order is cancelled
CLOSE	Work order is closed
NRBU	Not Released By User
WSCH	Waiting to be scheduled into the PMEL

1.1. **CTR00A.** Electronic Lab.

1.2. **CTR00B.** Electrical Lab.

1.3. **CTR00C.** Dimensional Lab.

1.4. **CTR00D.** 68 Degree Room.

1. **FEMS Reports.** The FEMS Reports are listed as follows:

FEMS PMEL Reports

Report Name:	Description:
7808	Compiles 7808 data for PMEL (semi-annual)
ADHOWMAL	PMEL Add How Malfunction Code Hierarchy
AMETVIEW	Equipment Overview Report
A-PML134	Metrology AF Form 134
AUDITDAT	AFMETCAL Data Selection
AVETIME	List average time required for repairs/cals of PMEL items by P/N
BEQRPT	PMEL BEQ Report
BLIS	PMEL BLIS Report for 151 MXS
CLOPRIOR	Conversion report from PMEVAL02; Lists closed priorities W/Os
COMPWORK	Work Completed by PMEL Labs
CTRLAB	PMEL Ctr Labor Assignments
CTRLAB2	PMEL Ctr Labor (RBP/INPRG)
CTRLAB3	PMEL CTR Auditor Assignments
CTRPRIOR	PMEL Ctr Priority List
DAYSCH	Daily Maintenance Schedule by Supervisor
DELTRACK	Counts PMEL CTR Deletions and NRS's
DIRINV	Lists Directorate PMEL Inventory
EQ-HIST	Equipment Material Cost Report
FLOWDAYS	PMEL Flow Time / Closed Work Orders
INVRECVD	Inventory Receipt Register
ITEMFLOW	Lists all added and deleted equipment for the PMEL contractor
LABOR	PMEL Technician List
LABRLIST	PMEL Labor Analysis
LONGSCHD	Projected RCC workload > 30 days
MAILABEL	Used to print mail labels on a dot matrix printer
METCLOSE	PMEL Closed TQP Work-Orders
METEQLBL	PMEL Equipment Label Maker
METLAB2	PMEL CTR TQP Labor Planner
METOPEN	List all Open TQP Work-Orders
METQUAL	TQP Metrics
METSEL	PMEL TQP Selected Items per Mo
METSTAT	PMEL TQP W/O by Status/Date
MGTACTP	IPE All Project Status Reports
MGTC5	C-5 Open/Closed Workorder Report
NRBUDATE	NRBU List by Selected Dates
NRBULIST	Metrology NRBU's > 60 Days
ORGSTAND	PMEL Organic Standards
OWNFLOW	Tracks Flow Time of PMEL Equipment by Owner.
OWNSTAT	Lists any given status for any given owner

PARTSDUE	Direct Purchase Back Order Report
POSTAT	Purchase Order Status Report
PMELERR	PMEL Data Error Reports
PMELHIST	PMEL TMDE History
PMELOWNR	PMEL Customer List
PMELPICK	PMEL Pick-up List
PMELPROJ	PMEL Projected Workload
PMEVAL01	PMEL Work Orders Awaiting Close
PMEVAL02	PMEL Work-Orders Closed by Date
PMLASTAT	PMEL Open Scheduled Workorders
PMLCSTAT	PMEL Current Status List
PMLRBP	PMEL RCC RBP Report
PROJHRS	1 Year Projected Workload Based on Inventory
RADQUAL	PMEL TQP Radiac Metrics
RADSEL	PMEL TQP Radiac Audit List
RCCINFO	PMEL Customer List(1-Owner/2-Command)
RCC-OWNER	Special Production PWC/RCC/DATES
RNRBYLOC	Response & Repair Perf. Analysis by Location
STABROPO	Purchase Order
STABSTA	WO/PO Status Report
STANTRKR	Tracks Standard Usage on PMEL Equipment
STAPO	PO Summary Report
STANEVAL	PMEL Standards Evaluation
STATSUM	Status Summary of PMEL Items
TECHPROD	PMEL Technician Equipment Tracker
TEMIKES	PMEL Purchase Order Funds
TMDEDELS	TMDE Inventory Including DEL and NRS
TMDEINV	TMDE Inventory List (Own Org Sort)
TMDEINVB	TMDE Inventory List (Perf RCC Sort)
TMDEINVC	TMDE Inventory List (ID No Sort)
TMDEINVD	TMDE Inventory List (Part No Sort)
TMDESCHD	TMDE Work Schedule
TMDESTAT	TMDE Status Report
TQPRPT	PMEL TQP Report Forms
WOPRINT	Metrology AF Form 134
WSRLIST	Lists valid WSR items for contractor, in order to select audits for the month
WUSR	WSR Status Evaluation for PMEL CTR
ZHILLNRS	NRTS Lists for PMEL by Date
